## EMU CREATES A SUITE OF NEW MATERIALS FOR MEETINGS & INCENTIVES

## Emu Design Studio helps to craft a brand new message & image for a 23 year-old company.

Emu Design Studio and long-time client Meetings & Incentives once again paired up for a considerable creative undertaking. Over the course of their 23 years, M&I had never found the need to promote itself. Although they are still experiencing record growth, they decided it was finally time to share the story of their people, their philosophy, and their amazing client relationships.

To deliver the story in a compelling and efficient manner, M&I turned to Emu for the creative concept, design and production of a suite of promotional materials which include a small-format brochure, custom presentation folder and new website (coming soon).
